Thanks Barb

Do you have any updates on the caged fish and have you heard any confirmed reports of fish kills in the Animas?

Attached are all of the EPA results so far. You can also see a somewhat digested version of the data at [http://www.epaossc.org/site/site\\_profile.aspx?site\\_id=11082](http://www.epaossc.org/site/site_profile.aspx?site_id=11082) under data reports. It lags behind the raw data however.

I share this as a member of the Stakeholder group. Preliminary draft data available to you - please use accordingly as preliminary draft data/information.

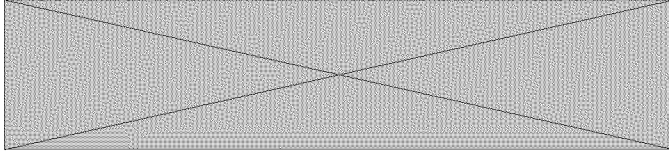

I hope we can coordinate data exchange in the future as information becomes available short term and for long term discussions, since we all have different information and limited capacities.

I don't know yet when and how CPW will decide to release the sentinel fish data, but look for the information.
